PROFILE

Qualified Front-end developer with 2.5 years experience in freelancing.Proficient in an assortment of technologies, including Java,HTML,JavaScript,CSS,React, angular,mongoDb and Microsoft SQL Server. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.Experienced in building multi-platform websites using Responsive Web Design.
I am also working hard and practicing backend development to become a Full Stack developer.I look forward to working collaboratively as well as passionate about going the extra mile to ensure that customer is satisfied with the product or service provided.

PROJECTS

Portfolio
Build a responsive personal portfolio.It was developed by react.js, which is very popular framework of javaScript right now.

Js Calculator
Built responsive calculator using javascript,html and css.

Admin Dasboard
I build this project using html,css and javascript and it was responsive and fast application.

Random Quote Macine
I used HTML, JavaScript, CSS, Bootstrap, SASS, and jQuery to complete this project. My quote machine should fetch the new quote's author when the new-quote button is clicked and display it in the author element.

Pomodoro Clock
The Pomodoro Technique is a time-management framework which is as simple as it is effective - I use a timer to break my work into time blocks (usually 25 minutes), separated by a 5 minute break.I create this using Html,css and javascript.

Drum Machine
I can use 9 clickable drum pad elements,When I press the trigger key associated with each .drum-pad, the audio clip contained in its child audio element should be triggered and a string describing the associated audio clip is displayed as the inner text of the display element.
I create this using HTML, JavaScript, CSS, Bootstrap.
